* Required

Which among the following is NOT a Integration testing faults? *   1 point

- ⦿ Inconsistent Interpretation of parameters
- ◯ violations of value domain
- ◯ In compatible method calls
- ◯ algorithmic fault
- ◯ Other:

In -------, the test engineer implements the same test cases on a modified   1 point
build. *

- ◯ Adhoc Testing
- ⦿ Regression Testing
- ◯ Sanity Testing
- ◯ Retesting
- ◯ Other:

✏ **Request edit access**

Which of the following testing is the part of non-functional testing? *   1 point

○ Unit Testing

◉ Performance Testing

○ System Testing

○ Integration Testing

○ Other:

----------------- is a type of software testing that is performed on a   1 point
complete integrated system to evaluate the compliance of the system with
the corresponding requirements *

○ Integration Testing

◉ System Testing

○ RegressionTesting

○ Unit Testing

○ Other:

Which is not the derivative of the waterfall model? *   1 point

○ Incremental Development

○ evoutionary development

◉ Spiral Model

○ Rapid Prototyping

○ Other:

✏ Request edit access

Which among the following is NOT a type of system testing? *   1 point

○ Load Testing

◉ Performance Testing

○ Stress Testing

○ Regression Testing

○ Other:

USN *

1CR18IS017

A ----------------is a micro-architecture or a skeleton of an application,   1 point
with hooks for attaching application-specific functionality or
configuration-specific components. *

◉ Framework

○ drivers

○ Design patterns

○ harness

○ Other:

✎ Request edit access

What is the full form of COTS? * 1 point

○ Component off the self computing

○ Computer Self Components

◉ Commercial off the self software

○ None of the given options

○ Other:

------------is a testing method for measuring how easy and user-friendly a 1 point
software application is *

○ Performance Testing

○ Acceptance Testin

○ Unit Testing

◉ Usability Testing

○ Other:

Which test would be performed at customer site? * 1 point

○ Alpha Test

◉ Beta Test

○ Performance Test

○ Stress Test

○ Other:

✏ **Request edit access**

System testing is a *   1 point

◉ Black box testing

○ Grey box testing

○ White box testing

○ Both Black and Grey Box Technique

○ Other:

----------------defined as a type of software testing to confirm that a   1 point
recent program or code change has not adversely affected existing
features. *

◉ Regression Testing

○ Integration Testing

○ Performance Testing

○ Load Testing

○ Other:

Which among the following is NOT a type of Regression testing? *   1 point

○ corrective

○ Progressive

○ selective

◉ Modular

○ Other:

✏ **Request edit access**

In which of the following testing level, the main focus is on customer usage? *   1 point

◯ Validation Testing

◯ Alpha Testing

◉ Both Alpha and Beta Testing

◯ Beta Testing

◯ Other:

The order in which test levels are performed is: *   1 point

◯ Unit, Integration, Acceptance, System

◯ Unit, System, Integration, Acceptance

◉ Unit, Integration, System, Acceptance

◯ d) It depends on the nature of a project

◯ Other:

Retesting of a single program or component after a modification has been made is known as---------? *   1 point

◯ Regional Regression Testing

◯ Retesting

◉ Unit Regression Testing

◯ Full Regression Testing

◯ Other:

🖉 Request edit access

---------------are the dummy programs in Integration testing used to facilitate the software testing activity * 1 point

- ☑ Stubs
- ☑ drivers
- ☐ Test Oracles
- ☐ Test cases
- ☐ Other:

Which among the following is NOT a approach of Integration testing? * 1 point

- ○ Big Bang
- ○ Incremental Integration
- ○ Bottom up
- ● All the given options
- ○ Other:

Test cases are designed during which of the following technique? * 1 point

- ○ Test configuration
- ○ Test recording
- ● Test specification
- ○ Test planning
- ○ Other:

✏ Request edit access

----------------is a type of testing done by users, customers, or other   1 point
authorized entities to determine application/software needs and business
processes. *

◯ Performance Testing

◉ Acceptance Testing

◯ Integration Testing

◯ Unit testing

◯ Other:

A regression test--------? *   1 point

◯ Will help us to ensure the software's entire areas have not been affected.

◯ Can only be run during user acceptance testing

◯ Will always be automated

◉ Will help us to ensure changed areas of the software have not been affected

◯ Other:

SRS is also known as the specification of--------. *   1 point

◯ Integrated Testing

◉ Black-box Testing

◯ Stress Testing

◯ White-box Testing

◯ Other:

✏ **Request edit access**

Which is not a type of fault? *   1 point

◉ cosmetic

◯ Severe

◯ Moderate

◯ Modular

◯ Other:

Which of the below statements is true about reviews? *   1 point

◉ Reviews should be performed on specifications, code, and test plans.

◯ Reviews are doubtful to identify faults in test plans.

◯ Reviews are the minimum operative way of testing code.

◯ Reviews cannot be performed on user requirements specifications.

◯ Other:

In which of the following SDLC models we needs to start testing activities   1 point
along with development activities? *

◯ Spiral Model

◉ V-Model

◯ Liner Model

◯ Waterfall Model

◯ Other:
